THE UNITED STATES NAVAL ACADEMY

HISTORICAL SKETCH

The United States Naval Academy is an institution of higher education conducted by the Navy Department for the purpose of preparing young men to enter the lowest commissioned ranks of the Navy and Marine Corps. It was founded as the Naval School in 1845 by the Honorable George Bancroft, historian, educator, and Secretary of the Navy, to improve the then unsatisfactory methods of instructing midshipmen. It was located at Annapolis, Md., on the site occupied by Fort Severn, which was given up for the purpose by the War Department. At first the course was 5 years, of which only the first and last were spent at the school, the intervening 3 years being spent on board ships on active service. It was reorganized in 1850-51 as the United States Naval Academy, with a course of study of 4 consecutive years. A summer practice cruise replaced the omitted sea service, and gave better opportunities for intensive training. During the Civil War the Academy was moved to Newport, R. I., but was brought back to Annapolis in 1865, where it has since remained. In the following years great improvements were effected in the organization and curriculum. From 1873 to 1912 the academic course was 6 years, the last 2 of which were spent at sea. In 1912 the course was fixed at 4 years, the 2 years at sea being omitted. During the Civil, Spanish-American, and World Wars, the course was shortened to provide more officers for the fleets. During the World Wars large classes of Reserve officers and Reserve midshipmen were trained at the Academy.

The students undergoing the course at the Naval Academy have been called in turn, acting midshipmen, midshipmen, cadet midshipmen and cadet engineers, naval cadets, and since the act of Congress approved July 1, 1902, midshipmen. A midshipman is an officer in a qualified sense. He is appointed a midshipman in the Navy, not merely at the Naval Academy, is subject to the orders and regulations of the Navy Department, but does not now participate in the benefits of retirement or longevity. He may be ordered to sea duty although this is not customary except on practice cruises. He ranks after a commissioned warrant officer, and ahead of a warrant officer. Upon graduation he may be commissioned an ensign in the line of the Navy, or a staff corps, or as a second lieutenant in the Marine Corps. In addition, 6 members of the class of 1959 were commissioned as second lieutenants in the United States Army and 83 as second lieutenants in the United States Air Force in accordance with Section 541, Title 10, United States Code.

Academic departments were reorganized on June 4, 1959. Under the Superintendent, directors were given cognizance over new departments as follows: Director of Science and Engineering—Mathematics, Science, and Engineering Departments; Director of Social Science and Humanities—English, History, and Government, and Foreign Language Departments; Director of Naval Science—Command, Weapons, and Naval Hygiene Departments; and the Commandant of Midshipmen—Executive and Physical Education Departments. At present about 25 percent of the academic work is devoted to the social-humanistic subjects, about 50 percent to the scientific-engineering subjects, and about 25 percent to the military-professional subjects.

The Naval Academy Library comprises about 155,000 volumes, with many popular, technical and naval magazines. The collection of naval histories and of naval biographies, of works on the development of various types of ships, of seamanship, navigation, aeronautics, ordnance and gunnery is especially strong. It is well developed in history, biography, international law and relations, travel, and in reference works, with other subjects in less degree. In addition, a collection of the best current fiction is maintained for recreational reading.

Beginning in the year 1899, following an appropriation of \$10,000,000 by Congress for the purpose, the Naval Academy was almost completely rebuilt in the French Renaissance style after the designs of the architect, Mr. Ernest Flagg, of New York. The grounds of the Academy proper now comprise 288.28 acres (Government-owned) and 17.26 acres (leased) along the west bank of the Severn River, on which are 263 buildings with equipment totaling an original cost of \$41,353,684.

An act of Congress approved on May 25, 1933, authorized the Superintendent to confer the degree of bachelor of science upon all graduates from and after the date of the accrediting of the Academy by the Association of American Universities. That association had placed the Naval Academy on its approved list on October 25, 1930, and graduates commencing with the class of 1931 became eligible for the degree. By virtue of an act of Congress approved July 8, 1937, the Superintendent is now authorized to confer the degree upon all living graduates.

The total number of graduates of the United States Naval Academy, including the class of 1959, is 29,027.

The administration of the Naval Academy is under the Bureau of Naval Personnel, Department of the Navy, Washington, D. C. Entrance requirements are fully set forth in the pamphlet Regulations Governing the Admission of Candidates Into the United States Naval Academy as Midshipmen, copies of which may be obtained by application to the Bureau of Naval Personnel. A description of the course of instruction is contained in the pamphlet, Course of Instruction at the United States Naval Academy, Annapolis, Md., copies of which may be had by applying to the Academy.

ANNUAL LEAVE

First (1960) and Third (1962) Classes

Midshipmen involved in the various cruises were granted periods of leave ranging from 33 days to 48 days at various times during the summer of 1959.

The leave periods for special groups such as the Football Squad and those participating in the Intercollegiate Rowing Association Regatta at Syracuse and National Pistol Matches at Camp Perry, Ohio were varied according to the circumstances in each situation.

SECOND CLASS (CLASS OF 1961) SUMMER INSTRUCTION—1959

The class of 1961 numbered approximately 838 midshipmen. The class was divided into three groups of about 253 midshipmen each, plus a Plebe Supervisory Detail of 78 midshipmen. The latter group, except for two one-day field trips in the local area, remained at Annapolis to supervise and instruct the new class of incoming plebes. The three main groups of second class midshipmen travelled in succession to most of the places described below, which comprise what is known as "Aviation Summer." Each group was granted about 30 days leave, either before or after the aviation phase.

TRAMID PHASE. Instruction in amphibious doctrine with participation in an amphibious landing occurred between 4 and 18 June at the Naval Amphibious Base, Little Creek, Virginia. TRAMID stands for "training of midshipmen."

WRIGHT AIR DEVELOPMENT CENTER PHASE. One group of midshipmen were guests of the U. S. Air Force at Wright-Patterson Air Force Base, Dayton, Ohio for three working days. They received tours and lectures on future developments in the Air Force.

PHILADELPHIA PHASE. The other two groups accomplished training for three work days in Philadelphia, Pa. at the following installations:

- a. Naval Air Material Center
- b. Naval Air Development Center
- c. Damage Control Training Center
- d. Philadelphia Naval Shipyard

These presentations were arranged by the Commandant, Fourth Naval District.

JACKSONVILLE PHASE. Commander Fleet Air Jacksonville (Florida) coordinated a five working day period which included an indoctrination day, a fighter aircraft day, an attack aircraft day, a Fleet Air Wing day and a lighter-than-air, Combat Information Center day. The latter was given at Glynco, Georgia. Immediately preceding the Jacksonville period each group was hosted by the Air Force

at Cape Canaveral, Florida, during which visit the midshipmen saw the missile launching installations of each of the military services.

PENSACOLA PHASE. Chief of Naval Air Basic Training conducted flight training for each midshipman in various types of training aircraft. A total of eleven participating flights per midshipman was accomplished. This included a jet flight, a helicopter flight and three take-offs and landings aboard the aircraft carrier, U. S. S. *Antietam*. Each group spent six days aboard the U. S. S. *Antietam* which made the Mississippi River transit from the Gulf of Mexico to New Orleans. Two days of liberty in New Orleans were offered to each group.

U. S. NAVAL ACADEMY PHASE. Transportation to the various locations was, for the most part, by air and was provided by Chief of Naval Air Reserve Training. Each group was retained at the Naval Academy for about two days during the summer for administrative purposes. During this time, each group either visited the Naval Ordnance Laboratory, White Oak, Maryland or received a lecture in Annapolis from a NOL representative. One group also visited the Martin Company in Baltimore, Maryland. The Plebe Detail, meanwhile, visited the Grumman Aircraft Corporation at Bethpage, New York, and used one day visiting the facilities at the Naval Air Station, Patuxent River, Maryland. Each midshipman second class of the Plebe Detail also was afforded two flights in UF aircraft of the Naval Air Facility, Annapolis, Maryland.
